A Consultant working in one of the UK's busiest Major Trauma Centres and Emergency Departments
I was amongst the first ED Physicians in the UK to adopt Point of Care Ultrasound running my first course in 2001 I believe Point of Care US will fundamentally change how we practice medicine over the next 20 years
I have been Co-chair of the EuSEM Ultrasound Section and also served on CEM (UK) and IFEM Ultrasound Committees
I have published papers and co-authored books on Ultrasound.
I would like to make it clear to those people who may consider me a little obsessed by Ultrasound that "I don't just do Ultrasound.....I do Echo as well!!
